McFarland's BURGLAR and FIRE PROOF SAFES!

THE undersigned would respectfully call the attention of the public to the above unequalled safeguard of property—proof against the devouring element of fire, as well as the most skilful burglar. To MERCHANTS, JEWELLERS, and BANK DIRECTORS, we would only say, examine them and the proofs, and you will be convinced of their superiority over all other manufacture.

Our business is done in a plain, straightforward way, without resorting to humbug or large talk.

Below is one of the many testimonials we are daily receiving from all parts of the country, and which speaks for itself. Messrs. Pond, & Hitchcock's Oil Store was situated directly under the Pearl-st House, and was totally consumed, in that great fire of August 23d.

New York, Aug. 23, 1853.

Messrs. Wm. McFarland & Co.

Gent.—It affords us pleasure to inform you that the Fire and Burglar Proof Safe we purchased of you, preserved our books and papers, at the disastrous fire of the Pearl-st House, last evening, in the most perfect manner. Although it was covered throughout the fire with burning Rosin, and other Oils, and directly under a broken gas pipe, in the most intense heat, it remained true to its name, and its contents when taken out were not even scorched, and hardly have the smell of fire. To any one who is in want of a superior Safe, a perfect safeguard against fire, we cheerfully recommend your manufacture, having had a personal experience of their excellence. Yours truly,

B. F. POND & HITCHCOCK.

CITY OF BANGOR.

An Ordinance in addition to an Ordinance further providing for the Regulation of the Police.

SEC 1—Be it ordained by the Mayor, Aldermen and Common Council of the City of Bangor, in City Council assembled,

That annually in the month of March or April, and at such other times as the Mayor and Aldermen may deem it expedient, a number of special Deputy Marshals, not exceeding twenty in all, may be nominated and appointed as is provided in said ordinance, to which this ordinance is in addition, passed March 7th, 1853, and that said Marshals, thus appointed, shall be called "Special Deputy Marshals," and shall be removable at the discretion of the Mayor and Aldermen, and shall each, before entering upon the duties of the office, be sworn as "Special Deputy Marshals," and give bonds to the city, with sureties to be approved by the Mayor and Aldermen, in the sum of Two Hundred Dollars, for the faithful performance of the duties of his office and the obligations of this ordinance; whereupon said Special Deputies shall possess and exercise, under the direction of the City Marshal, all the powers now or hereafter vested in the same. Said Special Deputy Marshals shall, when on duty, wear a badge with the word "Police" upon their hats or caps.

SEC. 2—Be it further ordained, That all the special "Deputy Marshals" elected under this ordinance shall be Police Officers, and exercise all the powers authorized by the Act of the Legislature entitled "An Act giving additional powers to Cities," approved June 15, 1850, and shall hold their offices until removed by the Mayor and Aldermen, until others shall be appointed and qualified in their stead.

SEC. 3—Be it further ordained, That no compensation or salary shall at any time be made from the City Treasury to any of said Special Deputies.

CITY OF BANGOR.

IN THE YEAR OF OUR LORD one thousand eight hundred and fifty-three.

An Ordinance additional to an Ordinance entitled "An Ordinance providing for the choice, duties, and compensation of a School Committee.

Be it ordained by the Mayor, Aldermen and Common Council of the City of Bangor in City Council assembled—

That the Superintending School Committee shall in addition to the powers with which they are now invested, be authorized and empowered to appoint, from time to time, a Superintendent of Public Schools in the city of Bangor. The person thus appointed shall hold his office during the Municipal year in which he is appointed, unless he shall be removed by the Committee aforesaid with the concurrence of the Mayor and Aldermen, and he shall receive from the city such sum for his services as the Committee shall fix and determine, not exceeding, however, the sum appropriated for the superintendence of the Public Schools. He shall act under the direction and advice of the Committee, and shall devote himself to the business of his station in promoting the order and welfare of the Schools, the care of the School property and repairs of School Houses, and generally and faithfully perform all the duties pertaining to Schools required of him by the Committee.

PATENT SELF HEATING

SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements; but female labor has been nearly neglected until the introduction of the Patent Self Heating Smoothing Iron, which will relieve them, in a very great degree, from the excessive and fatiguing labor of Ironing, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch; one cent's worth of dry charcoal supplies fuel for a whole days' constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

Important Bargains Offered.

LOTS of Land for Rural Dwelling Houses, with large Fruit and Vegetable Gardens, adjoining the city, mostly on the continuation of French St. and Broadway, and a street laid out, 75 feet wide, in the range with Broadway, (as it runs from State Street to the Park.) This street is laid out about 160 rods through my lands, extending over the west end of Mt. Pleasant. This land is north of and much higher than the Park, having a commanding view of the city and surrounding country.

Also, land for Orcharding and Farming, on the new Stage Road to Oldtown running by Coombs' Mills, situate beyond and near the first considerable elevation, having a view of some part of the city on its western side. This land is considered as good as the farm on which I live, where I have raised over 40 bushels of wheat to the acre, (as may be seen on the books of the P. A. Society,) and oats, hay and potatoes in that proportion. Some judgment may be formed also of my land for Fruit Trees on my lot near the city, by examining my bearing trees and our Fruit Nurseries.

My land East of the Mills has a considerable growth of wood on it, and some timber for frames. We can go three turns a day, it being one of the easiest roads running out of Bangor.

Liberal terms will be given on it, and the size of the lots made to suit purchasers,

Bangor, March 23, 1854

☞ If any person, not advanced in life, should appreciate the probable results of a few years good business in Bangor, of purchasing land from an original lot, beginning at East Market Square, (the northerly part of Lot No 68, Holland's Plan, is referred to,) where three leading and important streets are laid out passing into our great and important northern and western country, he can now do so. These streets will afford some of our finest seats for elegant Houses and valuable Fruit Establishments, without exception. I have only a strong wish to be relieved from part of my cares, and that of closing business of this kind which could induce me to sell at this time by the quantity. N. H.

To E. L. Hamlin, one of the Justices of the Peace within and for the County of Penobscot.

THE undersigned, members of the Kenduskeag Log Driving Company, request you to issue a warrant to one of them, directing him to call a meeting of said company, to be held at the counting-room of Stetson & Co., in the city of Bangor, on SATURDAY, the twenty-ninth day of April instant, at ten o'clock in the forenoon, to make choice of all officers necessary for the business of said company, and to act upon such other matter as may be legally brought before said meeting.

STATE OF MAINE.

To Aaron A. Wing, of the city of Bangor, in the county of Penobscot, and one of the members of the Kenduskeag Log Driving Company,

GREETING:

Whereas Aaron A. Wing, Samuel Thurston, and L. J. Morse, members of the Kenduskeag Log Driving Company, have applied to me, E. L. Hamlin, Esq., one of the Justices of the Peace within and for said county, requesting me to issue a Warrant to you, the said Wing, directing you to call a meeting of the members of said Company, to make choice of officers necessary for said Company and to act upon such other matters as shall legally come before said meeting, to be held at the counting-room of Stetson & Co., on Saturday, the 29th day of April instant, at ten of the clock in the forenoon—

You are hereby required to notify and warn a meeting of the members of said Company, to be held at the time and place and for the purposes aforesaid, by publishing a notice thereof in the Daily Whig and Courier, a newspaper printed in said Bangor, two weeks successively, the last publication to be before the day of meeting. And have you there this warrant with your doings therein.

Dated at Bangor the twelfth day of April, in the year of our Lord one thousand eight hundred and fifty-four.

E. L. HAMLIN,

Justice of the Peace throughout the State.

NOTIFICATION.

Pursuant to the foregoing Warrant, to me directed, I do hereby notify the members of said Kenduskeag Log Driving Company, to meet at the time and place, and for the purposes aforesaid.

STATE OF MAINE.

In the year of our Lord one thousand, eight hundred and fifty-four.

AN ACT to authorize the City of Bangor to aid the construction of the Penobscot and Kennebec Railroad.

Be it enacted by the Senate and House of Representatives in Legislature assembled, as follows:

Section 1.—The city of Bangor is hereby authorized to loan its credit to the Penobscot and Kennebec Railroad Company, in aid of the construction of their railroad, not exceeding, however, the sum of five hundred thousand dollars, upon their compliance with the following terms and conditions:

SECTION 2. If this act shall be accepted, as hereinafter provided, and said company shall, within three years from its approval, produce evidence satisfactory to the mayor and aldermen of said city for the time being, that the sum of $500,000 has been collected from the subscriptions to the stock of said company, and paid in and actually expended in the construction of their road and the purchase of the right of way, then such fact shall be certified by the mayor and aldermen to the city treasurer and he shall forthwith issue to the directors of said company, for the purpose of completing said road, the scrip of said city, payable to the holders thereof at the expiration of twenty years from the date thereof, in the sum of five hundred thousand dollars with coupons for interest attached, payable semi-annually; Provided, however, that the whole amount of said scrip shall not exceed the said sum of $500,000. And provided further, that said scrip of $500,000 may be subdivided and issued in lieu thereof for such sums as the parties may deem expedient.

Section 3.—Concurrent with the delivery of said scrip as aforesaid, the president and directors of said company, in their official capacity, shall execute and deliver to said city treasurer the bond of said company in the penal sum of ten hundred thousand dollars, payable to said city, conditioned, that said company will duly pay the interest on said scrip and the principal thereof, and in all respects hold and save the city harmless on account of the issue of the same. And shall also execute and deliver to said treasurer the scrip of said company, payable to the holders thereof at the same time and for the same amount as the scrip then issued by said treasurer to said company with the like coupons attached. Which scrip shall be held by said city as collateral security for the fulfilment of the conditions of said bond, and in default of any one of said conditions, said city may from time to time sell said scrip or any portion thereof at public auction or auction in the cities of Bangor, Boston or New York, after sixty days notice in writing, to the president, or one of the directors, or three of the stockholders of said company, naming herein the time and place of sale and the net proceeds thereof shall be endorsed on said bond.

SECTION 4. The president and directors of said company are hereby authorized, and it shall be their duty in their official capacity, upon the receipt of said scrip from said city, and the delivery of their bond to said city, to secure the payment of the same, to execute and deliver to said city a mortgage of said railroad, and of all the property of said company real and personal, which they then have or may subsequently acquire, together with their franchise without prior incumbrances, which mortgage shall be signed by the said president in his official capacity, and shall be executed according to the law of this state, and shall be in due and legal form, and shall contain apt and sufficient terms to secure to said city the fulfilment of all the conditions in said bond contained; and said mortgage, so executed, and delivered and recorded in the registry of deeds for the county of Penobscot, shall, to all intents and purposes be, and the same is hereby declared to be, a full and complete transfer of said railroad, of all the property of said company real and personal, then or subsequently to be acquired, and of said franchise subject only to the conditions therein contained, any law to the contrary notwithstanding; and all the proceedings in the organization of said company, and choice of directors shall be deemed valid and regular.

SECTION 5. For the purpose of foreclosing said mortgage, it shall be sufficient for the said mayor and aldermen to give notice according to the mode prescribed in the fifth section of the one hundred and twenty-fifth chapter of the revised statutes, which notice may be published in a newspaper printed in said city of Bangor, and record thereof may be made within thirty days after the date of the last publication, in the registry of deeds for the county of Penobscot, which publication and record shall be sufficient for the purposes of such foreclosure. Upon the expiration of three years from and after such publication, if the conditions of said mortgage shall not within that time have been performed, the foreclosure shall be complete, and shall vest the title to the railroad, and to all the property and franchise aforesaid, absolute in said city.

SECTION 6. If the directors of the company shall at any time neglect or omit to pay the interest which may become due upon any portion of the scrip issued and delivered under the provisions of this act, or to pay the principal as it shall become due, or to comply with any of the conditions of said bond, the city of Bangor may take actual possession in the manner hereinafter provided, of the railroad, of all the property, real and personal, of the company and of the franchise thereof, and may hold the same and apply the income thereof to make up and supply such deficiencies, and all further deficiencies that may occur, while the same are so held, until such deficiencies shall be fully made up and discharged. A written notice signed by the mayor and aldermen, and served upon the president or treasurer, or any director of the company, or if there are none such, upon any stockholder in the company, stating that the city thereby takes actual possession of the railroad, and of the property and franchise of the company, shall be a sufficient actual possession thereof, and shall be a legal transfer of all the same for the purposes aforesaid to the city, and shall enable the city to hold the same against any other transfers thereof, and against any other claims thereon, until such purposes have been fully accomplished. Such possession shall not be considered as an entry for foreclosure, under any mortgage hereinbefore provided, nor shall the rights of the city or of the company under such mortgage, be in any manner affected thereby.

SECTION 7. All moneys received by or for the railroad company after notice as aforesaid, from any source whatever, and by whomsoever the same may be received, shall belong to and be held for the use and benefit of the city in the manner and for the purposes herein provided, and shall after notice given to persons receiving the same respectively, be by them paid to the city treasurer, which payment shall be an effectual discharge from all claims of the company therefor, but if any person, without such notice, shall make payment of moneys so received, to the treasurer of the company, such payment shall be a discharge of all claims of the city therefor. All moneys received by the treasurer of the company, after such notice, or in his hands at the time such notice may be given, shall be by him paid to the city treasurer, after deducting the amount expended, or actually due for the running expenses of the road, for the salaries of the officers of the company, and for repairs necessary for conducting the ordinary operations of the road.

Such payments to the city treasurer shall be made at the end of every calendar month, and shall be by him applied to the payment of all the interest and principal due as aforesaid; and any person who shall pay or apply any moneys received as aforesaid, in any manner contrary to the foregoing provisions shall be liable therefor, and the same may be recovered in an action for money had and received, in the name of the city treasurer, whose duty it shall be to sue for the same, to be by him held and applied as is herein required.

Section —For the purpose of effecting the objects prescribed in the two preceding sections, the Mayor and Aldermen may cause a suit in equity to be instituted in the name of the city of Bangor, in the Supreme Judicial Court in the county of Penobscot, against the Railroad Company, its directors, or any other person as may be necessary, for the purpose of discovery, injunction, account or other relief, under the provisions of this act: and any Judge of the Court may issue a writ of injunction or any other suitable process on any such bill, in vacation or in term time, with or without notice, and the Court shall have jurisdiction of the subject matter of such bill, and shall have such proceedings and make such orders and decrees as may be within the powers and according to the course of proceedings of Courts of equity, as the necessities of the case may require.

SECTION 9. If the railroad company shall, after notice of possession as aforesaid, neglect to choose directors thereof, or any other necessary officers, or none such shall be found, the mayor and aldermen of the city shall appoint a board of directors, consisting of not less than seven persons, or any other necessary officers, and the persons so appointed shall have all the power and authority of officers chosen or appointed under provisions of the act establishing said company, and, upon their acceptance, such officers shall be subject to all the duties and liabilities thereof.

SECTION 10. The city shall appoint one of the directors of said railroad company from among the stockholders, who shall be chosen annually by the city council in joint ballot, before the annual meeting of said company, for the choice of their officers, who shall have the same authority in transacting the business of said company, and who shall be entitled to like compensation form the company as any other director, but the right to choose such director shall cease when the loan, contemplated is extinguished.

SECTION 11. As an additional or cumulative provision for said city, all liabilities, which by said city may be assumed or incurred under or by virtue of any of the provisions of this act, shall at all times and by force thereof and for the security and payments of the same, create in favor of said city a lien on said railroad, its franchise, and all of its appendages, and on all the real and personal property of said railroad corporation, which lien shall have the preference and be prior to all other liens and incumbrancies whatever, and shall be enforced and the rights and interests of said city protected, when necessary, by suitable and proper judgments, injunctions or decrees of said supreme judicial court on a bill or bills in equity, which power is hereby specially conferred on said court.

SECTION 12. This act shall not take effect, unless it shall be accepted by said company, and by a vote of the inhabitants of said city, voting in ward meetings duly called according to law; and at least two-thirds of the votes cast at such ward meetings shall be necessary for the acceptance of this act. The return of such ward meetings shall be made to the aldermen of said city, and by them counted and declared, and said city clerk shall make record thereof; but this act shall take effect from and after its approval by the governor, so far as to empower the railroad company and the inhabitants of the city to act upon the question of accepting the same. The several ward meetings of the inhabitants for that purpose shall be called and held within six months after such approval; and the same time shall be allowed for its acceptance by the said company, which acceptance shall be recorded on their books. And if the act shall be accepted as aforesaid, then after such acceptance and record thereof, all the parts of the act shall take effect, and be in full force.

Whig and Courier.

John S. Sayward, Editor.

MONDAY, MAY 1, 1854.

OUR OWN AFFAIRS.

The present number of this paper is the last that will be issued by the present publishers, and with it will terminate the present editorial control. If the task of penning a farewell is difficult we must not complain, since it has been made necessary by our voluntary act and without any outside suggestion or pressure.

For reasons of a personal character the publishers of the Bangor Daily Whig and Courier and the Bangor Courier, have disposed of the office they have been so long in building up, with the subscription list and the good will of the establishment in all its departments, with the exception of the demands due to them, to William H. Wheeler Esq., and to Mr John H. Lynde of Augusta, who will continue the publications and carry on all the departments of the printing business the same as though no change had been made.

Mr. Wheeler is well known through the State as the able, prudent, and energetic editor of the Kennebec Journal, a meritorious Whig paper, published at the Capitol of the State, and in his hands no interest will suffer. The political, social, intellectual and moral welfare of the people will be promoted. He was a Bangor Boy, received his early education in our public schools, and will return after long years of absence with the enthusiasm of an early love of the city, and with a new and firmer faith in its progress and its promise. He comes to identify himself with and to labor zealously for the honor and welfare of the city.

His business partner, Mr Lynde, possesses skill energy and business habits, which will secure to the friends of this office every facility, accommodation and assurance which they desire.

We resign the charge and direction of these papers and the establishment, into good and honest hands, and we commend them to the ready and cheerful support and encouragement of all our friends, and the Whigs, one and all, throughout Middle and Eastern Maine.

The change which has been effected in the proprietorship of the paper will make no change necessary in any contracts we have made with parties at home or abroad for advertising, as all such contracts will be executed in the same manner of the letter, the same as though no change had taken place.

All advertising which has been commenced will be completed by the new proprietors, and the accounts will be settled with us.

The accounts of all our yearly advertisers, and railroads and steamboats will be charged on our books to the first of May. At that date they will be entered upon the books of the new proprietors.

The subscriptions to the Daily and the Weekly papers will be made up on our books to the first day of May, and at that date the subscription lists pass to the books of Messrs Wheeler & Lynde, and the accounts will be continued by them.

As we are about to leave the editorial profession, at least for the present, and to part company with so many friends whose acquaintance we have made through our printed columns, by the Daily or the Weekly visits of our publications, we may be permitted to indulge in remarks somewhat personal to ourselves.

It is a hard thing to say farewell to so many friends, who for half a generation of time have generously sustained us, and given us strength in our weakness, and cheered us in our despondency, and encouraged us in our labors, and made the path of duty a delight. The best portion of our life, the years of our vigor and our hope, have been spent in connection with this press, and although the duties of our station have been but feebly performed, we have often been tasked to the utmost in body and in mind. But the business, as a whole, has been to us agreeable, and we have been permitted to pursue it with great freedom and according to our own judgment and with little interference or opposition as often, if ever, falls to the lot of political editors. We have enjoyed the past, we delight in the profession, and we should not have relinquished our position while enjoying so largely the confidence of our patrons, the agreeable courtesy of our brethren of the press, and the kindly commendations of our friends but for the necessity that exists for us to escape from labors which overtask our physical and mental energies. Every man has his warnings, and he must heed them, bravely determined, however, in this world of ours, to wear out, rather than rust out.

The senior publisher became a citizen of Bangor and engaged in the business of publishing the Daily nearly nineteen years since, and has continued unremittingly in carrying on the work for the whole of that time having associated with him at different periods three different business partners including the writer of this article.

We may truly say that much of the success which has marked the history of the Bangor Daily Whig and Courier, has arisen from the thorough acquaintance which the senior partner had with the art of printing, his unflagging industry, his promptness in fulfilling engagements, his determination to deal honestly and equally with all men, and his Franklin-like economy.

About sixteen years since we commenced our regular labors on this paper as associate editor, which we continued for about three years when we purchased one-half of the office and assumed the responsibilities of sole editor.

Since the present publishers have been associated in business the size of the paper has been nearly doubled by several enlargements made necessary by increasing business. There has been a gradual but very regular increase of the business of the office in all its departments, until it has more than doubled. And this has been effected without the employment of agents or runners, without importuning the community, and without the first effort to injure others by instituting a close competition, or otherwise, but simply by attention to the regular business and labor of the office, an earnest and honest endeavor to serve all doing business with us in a prompt and straight forward manner, and on terms of exact equality, and a disposition to make success more dependent on taking something out of ourselves, than taking anything out of others.

To our numerous friends, subscribers in the various Counties, scattered as they are over a wide region, and some of them the friends and supporters of this office for nearly forty years, we would return our hearty thanks for their encouragement and support. We have endeavored by several enlargements and improvements of the weekly paper to show our appreciation of the support accorded to it, and although we have never been able to make it what we anxiously desired it should be, we have greatly increased its reading matter and lessened its price. It has not appeared convenient for all to whom we have sent the Courier to make their payments promptly, but we must express the hope that as we have now disposed of our pecuniary interest in the paper that no one will hesitate to make immediate payment, as every neglect on the part of our distant friends will serve to embarrass us and waste our time. The past business affairs of the paper must be closed as speedily as possible, and we trust that every one will regard this as a notice to that effect and be ready to respond to the call without delay.

Those who have paid in advance will be credited with the amount due to them upon the books of our successors.

Our intercourse with our brethren of the Press has been marked by great courtesy and kindness on their part. We extend to them the parting hand of brotherhood, wishing them the highest success in all their efforts and returning them our grateful thanks for their generous confidence, and asking their forgiveness of any seeming neglect or occasional harshness. The profession, more than any other, teaches how utterly impossible it is for one man to do everything an experiment they are often compelled to try.

We have endeavored, in our humble way, to make the press subserve the public, rather than personal interest, and to make it the medium of truth and good rather than falsities and evil; to remove from it as far as possible, the spirit of acrimony and personality, preferring enduring principles of honor and progress; and to make it the medium of a generous public spirit, which folds in its embrace at its broad arms all essential interests and all classes and grades in the fields and callings of men.

To our political part we have endeavored to act with fidelity, without lauding its mistakes, or attempting to vindicate its wrongs. In this we have endeavored to be guided by the rule given to us by the bold man, eloquent, who goes with our party as far as we could with that conviction of conscience and there to stop, and labor for its return to the path of duty and of hope. We have regarded political party of government as a means of practically promoting the public welfare, and not as an end to secure the public offices to the few.

Our idea has been, and still is, that a local paper, must have in a great measure a local character, in order to exert a just influence. The city of Bangor is the centre of our earthly regards, and whatever concerns her welfare, her honor, her character and her progress, has always touched us closely. Within its limits the day of our life has been spent. Here we have buried the remains of the wife of our youth and six of our little ones, and Bangor is associated with all our thoughts of their earthly and their spirit life, even as now minded and cared for by the white soft hand of angels. Here we have formed most of our friends, and been surrounded with warm hearted friends in whose confidence we can safely repose. Here we have passed, amid many disadvantages our education, such as without teachers, but the community have encouraged us and confided in us, and called us away from the labor of the hands into that of the brain, and to the frequent expression of our heart-feelings. We owe much to the people of Bangor, and especially to its business men, and we do not believe that in all the domains of the broad earth can there superior be found in all that constitutes true manhood.

We have spoken, perhaps too freely of matters exclusively personal to the writer, and thereby exposed ourselves to the risk of making uncertain revelations and the exhibition of weaknesses which we may be quite unconscious. But we have never written under restraints of this kind, and now that we are about to retire from the position we have held for so many years we do not feel disposed to throw away that freedom we have always exercised of unrolling our whole heart before the community, that they may read all that is written within and without, if any good, or any amusement could come of it. But we have done. Good friends, one and all, may God bless and prosper you—we lay down the editorial pen. FAREWELL.

☞ In a recent visit to the elegant apothecary store of Messrs G. F. Sargent & Co., we were reminded, by the improvements and neatness there, that a new partner had been taken into the firm, Mr B. F. Bradbury, who has for some time been an attentive clerk and salesman of the establishment where he has richly won the confidence resulting in his promotion. Mr Bradbury has studied very faithfully the science of chemistry and the art of compounding medicine under the best instructors in Philadelphia. He brings to the business abilities, caution, energy and industry—a readiness to serve customers faithfully, good naturedly, and in a pleasing manner. The new firm will deserve well of the public.

Few are aware how frequently Publishers are compelled to insert among their advertisements, statements which they can make at sanction or believe.

A pleasant exception to this disagreeable necessity are the advertisements of Dr. J. C. Ayer's Cherry Pectoral and Pills, which are to be found in our columns. We have published for him before, and always with the feeling that in so doing we are not lending ourselves to deceive or mislead the people, for we are had indisputable proof that his words are strictly true, with abundant reason to believe that his medicines will do all they promise, and all that can be reasonably expected from any medicine. His Cherry Pectoral is too well known in this community to need any commendation from us, and his Pills we are credibly informed are not inferior to it.—*Providence Mirror, R. I.*

☞ Those wishing to obtain choice fruit trees for stocking their gardens will find in the collection of Albert Noyes, Esq., a fine variety of plum; cherry, pear and other trees. Also in the nursery of the Messrs Dunning fine apple and pear trees of Bangor growth. J. Wingate Carr, Esq., has also a good collection from which to select, and so, we understand, has Major J. W. Chapman. The season for setting trees should be actively employed and the city made beautiful and attractive by high culture and by a full growth of fruit trees and fruit and flower yielding shrubs. Every family should consider that they have a mission to make the earth beautiful by the hand of skill and the head of art—to make every home attractive and encircled with the sweetest and purest influence from without and within, so that it may become the representative of a society of angels as each heart should be, of a heaven of purity, truth and goodness.

Thesaurus of English Words, so classified and arranged as to facilitate the expression of ideas and assist in Literary Composition. By Peter Mark Roget, late Secretary of the Royal Society, Author of the Bridgewater Treatise, on Animal and Vegetable Physiology etc. Revised and edited with a list of foreign words defined in English, and other additions. By Barnas Sears, D. D., Secretary of the Massachusetts Board of Education.—Boston: Gould & Lincoln. 1854.

The above is the full title to a substantial volume of four hundred and sixty eight pages in the good style of the able and faithful publishers whose imprint it bears.

The author's original work was one of meritorious character, and its preparation for the American press caused much labor and appears to have been executed with signal ability and success, so much so as to receive the sanction of men of learning who have examined into its merits and understood the wants of literary men.

This volume may be found at E. F. Duren's bookstore, near the Post-office.

☞ The British barque Elizabeth, arrived at Boston reports that on the 21st of April, lat 42, lon 61 10, fell in with three boats containing Capt. Smurfield, and nine of the crew of the British barque Beaufort, of London, bound from Omoa to Cork. The barque sprung aleak on the 15th inst., in a heavy gale, and was thrown on her beam ends on the 17th, after which her masts were cut away, and she righted, but the leak increased so fast that the pumps could not keep her free, and she was abandoned. At the time she was thrown on her beam ends three of her crew were drowned. Their names were Wm Siddle, carpenter, Daniel Taylor, steward, and Robert Fish, seaman.

☞ The use of cast iron pumps has become so common in the dwellings of our citizens as to create quite a business in setting, adjusting and repairing them. Mr J. Gould, a skillful young mechanic, who has had experience in this business, has opened a shop for attending to this business exclusively. We have tested his skill and can cheerfully recommend him to those in want of aid in making their suction pumps do duty after the severe frosts of the late hard winter. He may be found in the chamber over the store of H. Levy on Kenduskeag bridge.

☞ Launched at Kennebunkport 27th inst., from the yard of Messrs. D. & S. Ward, a superior white oak built ship of about one thousand tons, named the General Nowell, in honor of Gen. Simon Nowell of this city. She is owned by Charles Ward, Thomas Nowell, Robert Towne and others, and is to be commanded by Capt. Robert T. Nowell.

☞ We are indebted to Mr. Cushing, the attentive and gentlemanly Clerk of the steamer Daniel Webster for papers received on Saturday, in advance of the mail.

☞ The State Democratic Committee have given notice for the assembling of a Delegate Convention to be held in Portland on the 29th of June next.

☞ We are indebted to Charles P. Kimball, Esq., proprietor of the Noisy Carriers publishing Hall in San Francisco for files of California papers.

☞ The Massachusetts Legislature have authorized the annexation of Charlestown to Boston.

☞ Any man who volunteers himself as a witness to a private conversation, should be very certain that—

☞ Mr. Sekenger will be happy to see all his friends at his Green House to-day. There is to be a ticket admission.

Holloway's Pills again efficacious in Curing a Severe Case of Rheumatism.—Extract of a letter from Mr. William Davies of 26 Regent Road, Salford, dated April 18th, 1853. "To Professor Holloway. Sir,—I was troubled for some months with rheumatic pains in all my limbs, and tried every thing I could hear or think of with but any good effect, at last I was recommended to try your Pills, a few doses of which relieved me, and before I had finished the second box I was quite well, and am still in the enjoyment of sound health. The papers here, this morning, in announcing the acquittal of M. J. Ward for the murder of Prof. Butler while in school, state that the jury agreed upon a verdict after an absence of only five minutes.

THE ERICSSON

NEW YORK, April 29.

The celebrated Caloric ship Ericsson, returning from a private trial of her engines, was sunk near Jersey shore, but all hands escaped. The ship lies in over 40 feet of water, the top of her wheel house and pipes only being above the surface. She will, in all probability, be raised in a few days. She made twelve revolutions per minute during her trip, and attained a speed of about eleven miles an hour.

VIOLENT STORM AT NEW YORK

During the gale of Thursday evening, some 20 or thirty buildings in the upper part of the city were blown down or unroofed. A block of nine four-storied houses on 34th street, occupied by about 40 families, was entirely unroofed. No lives were lost.

The storm is raging from the northeast this morning as violently as ever. It has been raining in torrents all night and still continues.

Lumbering Song.

Air—Nature's Gay Day.

'Twas in November, it cold, bleak November,
When the trees and the bushes were covered with snow
That the lumbermen started, so stout and light hearted
Away to the wildwoods slumbering to go.
Their wives, they were sighing
Their children were crying,
Their sweethearts were dying with grief and dismay
But the lumbermen passed them,
They kissed and caressed them,
And said they'd return ere the sweet month of May.

CHORUS

There's no occupation throughout all creation
All this recreation on a cold winter's day
Like going to the wildwood a-chopping the pinewood,
And the fine, lofty trees, and to haul them away.

Their axes were sounding,
The wild woods resounding,
The teamsters were hauling the timber away
To the banks of the river,
When the cook hauls out dinner
To the camp then they started without more delay
Merrily singing, the camp it was ringing,
With mirth and with fun and with frolic so gay,
Like birds of a feather they all flock together,
They dined and they started light hearted away.
There's no occupation, &c.,

As each evening descended the day's toil is ended
The moon shines so splendid to light them away
To the camp in the wildwood,
With hearts light as childhood
They danced and they sung and they slept till next day
Merrily singing the camp it was ringing,
With dancing and singing so pleasant and gay
Like birds of a feather, they all met together,
They danced and they sung and they slept till next day.
There's no occupation, &c.

Tho' the winter was dreary, the prospect was weary,
The men were not weary of toiling each day
The trees they were falling, and the teams they were hauling,
Thus the days and the weeks and the months passed away,
Still axes were swinging,
And the wildwoods were ringing
And the song birds were singing
So blithe on the spray,
For homeward returning, each bosom was yearning,
For the spring was returning so cheerful and gay.
There's no occupation, &c.

Now the winter has ended,
Bright Sol condescended,
To melt all the snow and to chase it away,
And the lumbermen started,
So gay and light hearted
Right off to their homes in the sweet month of May
No more the axe soundeth,
Nor wildwoods resoundeth,
But the songs of the sons of birds were heard on the way
As the lumbermen started,
And quickly departed,
From the woods to their homes ere the sweet month of May
For there's no occupation, &c.,

A WONDERFUL DISCOVERY has recently been made by Dr Curtis, of this city, in the treatment of Consumption, Asthma, and all diseases of the lungs. We refer to "Dr Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr C. has restored many afflicted ones to perfect health, as an evidence of which, he has innumerable certificates. Speaking of the treatment, a physician remarks:—It is evident that inhaling—constantly breathing an agreeable vapor—the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach and subjected to the process of digestion. The Hygeana is for sale at all the druggists throughout the country.—[From the New York Dutchman of January 14th.

DO NOT FORGET,

If you have a cough or cold, hoarseness, asthma, or any thing of the kind, that PITMAN'S REMEDIAL COMPOUND, a pleasant remedy, has cured such diseases. Here is one of many cases:

"Having been afflicted with a severe and obstinate cough, (after using other articles in vain) I obtained a bottle of Mr Pitman's 'Remedial Compound,' which entirely removed my cough in a few days. Its effects were also very beneficial upon a friend to whom I recommended it.

Holloway's Ointment and Pills, the best Remedies for the cure of Bad Legs.—Mrs. Bergel, of Blythe, near Morpeth, was afflicted with a dreadfully bad leg, for which she consulted the most eminent medical men in that neighborhood, but it would not yield to their treatment. Her health suffered severely, and the state of her leg was terrible; the ulcers rapidly increased in size, and the pain was most agonizing. In this state she commenced using Holloway's ointment and Pills, and after continuing them for some short time the leg was completely cured, and she is now in the enjoyment of excellent health. Mr. Wilkinson, druggist, Blythe, vouches for the accuracy of this statement.

Have You!

Have you got rheumatic pains
Have you got any aches or sprains?
Have you cancer on your nose?
Have you corns upon your toes?
Have you any running sores?
Have you lumps that count by scores?
Have you burnt your face or hand?
Have you any swollen gland?
Have you such a thing as gout?
Have you cause to sadly shout?
Have you on the toe ingrowed?
Have you "a noshed" all bruised your head?
Have you itch, defying all?
Have you cuts that almost kill
Have you aches in tooth or ear
Have you piles that fidget queer?
Have you bruises of any kind?
Have their galls or broken wind?
Have they ring-bone—hard to cure?
Have they big head to endure?
Have they scratches or cracked heel
Have they chafes that blood reveal?
Have they spavin—worse than all?
Have they? Have you? List! we call—
Have you tried the Doctor's Stuff—
Have you—till you've got enough

☞ To the Ladies.—Hyde's Golden Gloss for the Hair, is a preparation which has no equal. It is highly perfumed, and imparts the fragrance of the most delightful flowers. It makes the hair

SOFT, GLOSSY, AND BEAUTIFUL,

and causes it to grow luxuriantly, preventing it from falling off or turning grey. It removes dandruff, prevents eruptions forming, and keeps the scalp clean, smooth and healthy. It has cured nervous and sick headache by a single application. Ladies who learn its value for the toilet will never be without it. Price 25 cts. W. C. HYDE, Proprietor 304 Broadway, New York. S. E. PERKINS, Agent Bangor. 3mdt, m

Dr Richardson's Sherry Wine Bitters have been sustained through more than one entire generation, and with a liberality unknown to any other medicine; no assurance is not known by the proprietor, where they have not been of benefit to those using them for the cure of complaints as recommended. In not the long continued unwavering support by the public, the *Sherry Wine Bitters*, sufficient evidence of its superiority over every other medicine offered for sale? Its manufacturer precisely the same, and the component parts are the same as they were at its first introduction. It contains no mineral substance whatever, and the public may be assured that it is the same *Richardson's Bitters* which through with the New England States the present rising generation have heard their fathers and mothers so often speak in praise.

"The Glory of Man and the Graceful Ornament of Woman."

What is there more glorious or more beautiful than to see a rich, luxuriant head of hair on either man or woman? And, when those rich tresses on woman begin to decay by disease, how important that we have some restorative of care! There are a thousand different preparations brought into use purporting to prevent hair from falling off, or causing a new growth when the head has become bald; but all of little or no use and very often injuring the diseased roots more than doing them good. But there IS an article which has recently been discovered in New York, which WILL prevent Hair from falling out and is guaranteed to produce a good growth of Hair on heads that have become bald. We have one case in point, of an elderly lady who has used it and who is willing to certify to the truth of the above. And to induce people to try it, the Wholesale Agent of Bangor offers for a reasonable sum to guarantee a good head of Hair on any one who will try it thoroughly for three months time, or no charge for the article. Now, come one, come all, it costs you nothing to try it. The preparation is called HURD'S HAIR RESTORER. Read the following certificate from a gentleman well known in this city as well as New York.

NEW YORK, Jan 2d 1853.

Mr Hurd—Dear Sir—I have been bald for the past five years, and as my father's and grandfather's family were bald at an early age it was considered hereditary, and I thought impossible to produce a new hair on my head, and indeed every thing failed, until I was induced to use your Hair Restorer. I commenced using it about six weeks ago, and where my head was then bald it is now covered with a vigorous growth of new hair, and there is no doubt it will produce hair on any bald head.

Yours truly, FARAND, Daguerreotypist, 307 Broadway.

Joseph Gillott's Steel Pens!

Infringement of Trade Marks!!

AT THE GENERAL TERM OF THE SUPERIOR COURT, held at the City of New York, March 1st, 1854, in the case of GILLOTT vs. LEWIS A. KETTLE, the order of the Special Term was affirmed with costs.

THE above action was had against the defendant for the sale of Pens in boxes from which the original labels had been removed, and other labels applied thereto, purporting that the pens were the Genuine No. 303, manufactured by the Plaintiff.

Notice is hereby given, that legal proceedings will be commenced against all persons detected in the sale of Pens bearing such changed labels.

A Reward of One Hundred Dollars

will be paid to the writer of said labels, or any other person who will enable the Plaintiff to make proof of the quantity of labels so printed, and the persons for whom they were printed.

Caution to Consumers.

Please observe that each Genuine Pen No. 303, has the said number stamped thereon, with the maker's name in full. HENRY OWEN,

Dr. Langley's Root and Herb
BITTERS.

A COMPOUND of Sarsaparilla, Yellow Dock, Prickly Ash, Dandelion, Thoroughwort, Wild Cherry, Mandrake, and Rhubarb. Just the Medicine for Ladies; sure to do them good.

SPRING HAS COME.

Read, consider, reflect! and know that after being shut up or confined in factories or workshops all winter the Liver becomes inactive and unhealthy, thus filling the blood with vitiated humors, producing Jaundice, Weakness, Loss of Appetite, Dyspepsia, Headache, Costiveness, Indigestion, Foul Stomach, Piles, Langour, and General Debility. Now then, if you wish to remove all these, together with humors in the Blood and Skin, take Dr. Langley's Root and Herb Bitters—at least one or two bottles. They always do good and never hurt. Let each and every man, woman and child have a bottle at only 25 cents for a pint, 37½ cents for a quart bottle.

Now Nature, herself, a sure remedy brings,
Which cleanses the current of life at its springs,
From fearful Diseases that bear to the grave,
Langley's Root and Herb Bitters infallibly save.
There's scarcely a dangerous disease we can name,
In which the Root and Herb Bitters have not achieved fame
And so safe is their action, they cannot do harm
While they strengthen the system and act like a charm.
Are you Temperance folks—when this medicine is used,
No drink alcoholic is by it infused,
Nor need the kind mother feel anxious alarm,
To the tenderest infant it cannot do harm.
Is your Liver disordered? Is Jaundice your foe?
Then Langley will deal both the monsters a blow;
Do you suffer from Headache—'twill give you relief;
For Piles 'tis of all cures acknowledged the chief;
The motto of "Buy me and I'll do you good;"
The test of experience has stoutly stood—
And many unto it the truth will appeal,
That the Root and Herb Bitters is every one's friend.
Is your Appetite gone, then the Root Bitters take
And you'll heartily to ... your ... of your ...
The blood it will purify—redden your cheek,
And strengthen your frame should it ever grow weak,
The Ladies declare no such Remedy's known;
And the sale is immense to the Fair Sex alone!
No wonder, the Bitters make Langour to fly;
Brings new bloom to the lip, new fire to the eye!

Sold in Bangor, wholesale and retail, by Ingraham & Fuller, Guild & Harlow, and by all Druggists and dealers in Medicine in Bangor, Orono, Oldtown, Stillwater, Hampden, Frankfort, and Bucksport, at 25 cents a pint and 37½ cents for a quart bottle.

KENNEDY'S

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two Bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach!

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact.—If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases, but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get, and enough of it.

ROXBURY, Sept. 19, 1853.

This is to certify that H. H. HAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

NUMBER ALTERED.

NEW ENGLAND TRUSS MANUFACTORY.

JAMES FREDERICK FOSTER,

MANUFACTURER OF

Rachet and Spiral Trusses,

533 (Opposite 515) Washington Street, 533.

BOSTON, MASS.

ALL the various approved TRUSSES constantly on hand.

Ladies waited upon by Mrs Caroline D. Foster, who has had twenty years' experience in the business.

He will keep a full supply of ready-made Trusses for Gentlemen and Ladies, Youths and Infants.—Abdominal Supporters of the most different kinds, such as Hulls, Chapin's Spiral, Cutter's, Fitch's, Ingalls, &c., &c.

TESTIMONIALS.

The following certificate from Dr. John C. Warren, of Boston, was given 17 years since, but will last forever.

Boston, Jan 5, 1853.

Having had occasion to observe the cases of persons afflicted with Hernia, have suffered much from the want of a skilful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr Beath.—After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating to the variety of cases which occur. I feel as ed upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles.

JOHN C. WARREN, M. D.

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhappily afflicted with Hernia, Mr James Frederick Foster, a skilful and competent person in the manufacture and fitting of Trusses. We have supported him (many of us over twenty years) and therefore speak from personal knowledge of his abilities. His early advantages, his long experience in the business, and the large number of individuals whom he has relieved is a valuable [illegible] recommendation. He is, in our opinion, equal, if not superior, to any manufacturer of the article. His father, John Gideon Foster, of Charlestown was maker of the Truss-house in that town for upwards of twenty-four years, during which period Mr Foster acquired much of his experience, and made application of Trusses to a great variety of cases, with great success, some of which were of a very complicated and distressing character.

It is well known to all who have occasion to wear a Truss, that its great excellence consists in its adaptation to the body, at the same time relieving the patient. Any ordinary mechanic may make a Truss, but none but a skilful practitioner can apply it in such a manner as to be effectual, and oftentimes radically cure the complaint.

Our experience has convinced us that Mr. Foster has thoroughly attained this knowledge. The certificates of Dr J. C. Warren, and other eminent surgeons which he has shown to us, fully sustain the opinion we here express.

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.

No. 76 State Street, opposite Kilby St., BOSTON.

IMPORTANT INFORMATION TO INVENTORS. The subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for patents superior to those offered inventors by others, has made arrangements whereby applications prepared and conducted by him THIRTY DOLLARS (instead of twenty as paid back by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments, and all papers necessary and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters, respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents.

Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

R. H. EDDY, Solicitor of Patents.

"During the time I occupied the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office as Solicitor of Patents. There were few if any persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

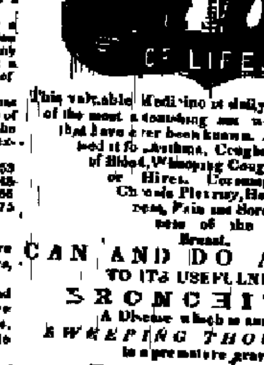

EDMUND BURKE, Late Commissioner of Patents."

"PATENT OFFICE, R. H. EDDY, Esq. Boston, Mass.

A CURE FOR ALL!

HOLLOWAY'S OINTMENT!!!

Citizens of the Union

You have done me the honour, as with one voice, from one end of the Union to the other, to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already it has obtained more celebrity than any other Medicine in so short a period.

THOMAS HOLLOWAY, 38 Corner of Ann and Nassau Sts., New York

ASTONISHING CURE OF SORE LEGS AFTER NINE YEARS STANDING.

Copy of a Letter from Mr. W. J. Langley, of Huntsville, Yadkin county, North Carolina, U. S., dated November 1st, 1853.

☞ READ HIS OWN WORDS.

To Professor Holloway:

Sir,—It is not my wish to become notorious, neither is this letter written for the mere sake of writing, but to say, that your Ointment cured me of one of the most dreadful cutaneous diseases that flesh is heir to, and which was considered by all who knew me to be entirely beyond the reach of medicine. For nine years I was afflicted with one of the most painful and troublesome sore legs that ever fell to the lot of man, and after trying every medicine that I heard of, I resigned in despair all hope of being cured, but a friend brought me a couple of large pots of your Ointment, which caused the sores on my legs to heal, and I can truly say I regained my health, to my agreeable surprise and delight, and to the astonishment of my friends.

(Signed) W. J. LANGLEY

AN EXTRAORDINARY CURE OF A BAD BREAST WHEN NEARLY AT THE POINT OF DEATH.

Copy of a Letter from Mr. R. Durant, New Orleans, November 9th, 1853.

To Professor Holloway 38, Corner of Ann and Nassau streets, N. Y.

Dear Sir,—It is with heart felt gratitude I have to inform you that by the use of your Ointment and Pills, the life of my wife has been saved. For seven years she had a bad breast, with ten running wounds, (not of a cancerous nature) I was told that nothing could save her. She was then induced to try your Ointment and Pills, when in the short space three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your medicines from Messrs. Wright & Co., of Chartres street New Orleans. I send this from "Hotel des Etrangers," Paris although I had written it New Orleans, before we finally left at that time, not knowing your address at New York.

(Signed) R. DURANT

The Pills should be used conjointly with the Ointment in most of the following cases

Bad Legs,	Fistulas,	Scalds
Bad Breasts,	Gout,	Sore Nipples,
Burns,	Glandular Swellings,	Sore throats,
Bunions,	Lumbago,	Skin diseases,
Chilblains,	Piles,	Scurvey,
Chapped hands	Rheumatism	Sore heads
Contracted and Stiff Joints,	Salt Rheum,	Ulcers, Wounds

☞ Sold at the Establishment of Professor Holloway, 38, corner of Ann and Nassau Streets, New York, also by all respectable Druggists and Dealers in Medicines throughout the United States, in Pots, at 37½ cents, 87½ cents, and $1 50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

☞ There is a considerable saving by taking the larger sizes.

WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

THIS valuable medicine, which has received the sanction of the medical faculty, by whom it is regularly prescribed, and which has been tested successfully by thousands of invalids, is one of the most remarkable preparations ever offered to the public for the cure of CONSUMPTION, SCROFULA, COUGHS, COLDS, ASTHMA, BRONCHITES, SPITTING OF BLOOD AND ALL COMPLAINTS OF THE LUNGS.

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases, yet discovered, while the chemical properties of the PHOSPHATE OF LIME are also well known in medicine as being peculiarly healing. In cases where ulceration has taken place on the lungs, this article has been found, by the most careful tests, to supply the very ingredients necessary for the formation of cells, and the complete healing of this delicate part of the human system.

This preparation of the pure Cod Liver Oil and Lime robs the Oil of its very nauseating taste, which renders it so repulsive, particularly to invalids.—The thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the strict application of the most perfect rules of chemistry, and the medicine has thereby been produced which is of inestimable value in a climate like our own.

A long array of certificates might be given here to prove the efficacious character of this medicine, but it is not deemed necessary. The fact that from the very first introduction of the Cod Liver Oil and Lime before the public, it has been gradually adopted by the medical faculty, is sufficient proof of its unquestioned excellence.

MEDICATED INHALATION.

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the city of New York and vicinity for a few months past, ever known to man. It is producing an impression on diseases of the Lungs never before witnessed by the medical profession. (See certificates in hands of Agents.)

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid, supplying the lungs constantly with a healing and agreeable vapor, passing into all the air-cells and passages of the lungs, that cannot possibly be reached by any other medicine. Here is a case of

ASTHMA CURED.

BROOKLYN, N. Y., Dec. 20, 1853.

For about eight years I have been severely afflicted with the Asthma; for the last two years I have suffered beyond all my powers of description; months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr Curtis's Hygeana of Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoon full of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued it, with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is—try it.

MARGARET EASTON

CONSUMPTION CURED.

NEW YORK, Dec. 27th, 1853.

I came to New York in the ship Telegraph, my native place is St John, New Brunswick; when I reached this city my health was very poor; had a bad cough raised a good deal of matter, which was frequently mixed with blood; had pain in my left side, and was very weak and emaciated. My friends and physician pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life. Soon after wearing the Inhaler I found it relieved the pressure on my lungs and after a while the disease (which had made its appearance upon the surface under the Inhaler). I took the Cherry Syrup as directed and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant, and being strengthening and purifying to the lungs, I feel unwilling at present to dispense with it.

CHERRY PECTORAL

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment and even prolong the term of human existence, none can be named of more real value to mankind than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control the varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following—and refer further enquiry to my American Almanac, which the agents below named, will always be pleased to furnish free, wherein are full particulars and indisputable proof of these statements.

Office of Transportation, Laurens R. R., S. C., Aug 4, 1853.

J C Ayer, Dear Sir—My little son four years old has just recovered from a severe attack of Malignant Scarlet Fever, his throat was rotten, and every person that visited him pronounced him a dead child. Having used your Cherry Pectoral in California in the winter of 1850 for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a teaspoonful every three hours, commencing in the morning and by ten o'clock at night I found a decided change for the better, and after three days use he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent. For all affections of the Throat and Lungs I believe it the best medicine extant. A feeling of the deepest gratitude prompts me in addressing you these lines,—but for your important discovery, my little boy would now have been in another world.

I am yours, with great respect,

J. D. POWELL, Supt. Trans., L. R. R.

Rock Hill, (Somerset Co.) N. J., July 21, 1852.

Dr. J. C. Ayer—Since your medicine has become known here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where its effect can only be called a miracle. It is not too much for the good it has done. I take pleasure in selling it, because I know that I can give my customers the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply and believe me

Yours, with respect, JOHN C. WHITLOCK

DR. MORSE'S Invigorating Cordial,

A Phenomenon in Medicine

Health Restored & Life Lightened by Dr. Morse's Invigorating Elixir, or Cordial.

For centuries, Medical science has been ransacking the vegetable and mineral kingdoms, in search of something that should restore the lost or decaying energies of the nervous and muscular systems, without the drawback of subsequent prostration, which all tonics, stimulants, tonics and narcotics had heretofore entailed.—That something has been found. It is a vegetable production, brought from the sterile deserts of Arabia the Stony, by the celebrated Professor M. Morse, well known as a distinguished member of the leading scientific societies of the Old world, and equally distinguished as a physician, a chemist and a traveller. The juices of this herb, concentrated and combined with other vegetable medicinal extracts, are now producing results heretofore unheard of in this or any other country. At first the properties attributed to Prof MORSE'S INVIGORATING ELIXER OR CORDIAL, were deemed fabulous. The public, often deceived, could not believe the simple and sublime truths announced by the discoverer. But facts, undeniable facts, attested by witnesses of the highest class and character, are now triumphing over all doubts. Incredulity is overthrown, by a mass of testimony which is perfectly irresistible.

The ELIXER remedies, in all cases, the deplorable evils arising from a misuse or abuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the reproduction of humanity. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the overworn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief, from the use of this incomparable renovator. To those who have a predisposition to paralysis it will prove a complete and unfailing safeguard against the terrible malady. There are many persons, who have so often trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even those despair. The ELIXER deals with disease as it exists, without reference to causes, and will not only remove the disorder itself, but

REBUILD THE BROKEN CONSTITUTION.

The derangements of the system leading to nervous diseases, and the forms of nervous disease itself, are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: neuralgia, tic doloreaux, headache, incipient paralysis, hysteria, palpitation of the heart, spinal affections, muscular debility, tremors, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking at the stomach, female irregularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of medicine.

Whenever the organs to be acted upon are free from malformation or structural diseases it is averred that

MORSE'S INVIGORATING ELIXER

Will replace weakness with strength, incapacity with efficiency, irregularity with uniform and natural activity, and this not only without hazard of reaction, but with a happy effect on the general organization. ☞ Bear in mind that all maladies, wherever they begin, finish with the nervous system, and that the paralyzation of the nerves of motion and sensation is physical death. Bear in mind also, that for every kind of nervous disease the ELIXER CORDIAL is the only reliable preparation known.

CURE OF NERVOUS DISEASES.

No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once braced, revivified, and built up. The mental and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary; on the contrary, the relief is permanent, for the cordial properties of the medicine reach the constitution itself and restore it to its normal condition.

LOSS OF MEMORY.

Confusion, giddiness, rush of blood to the head, melancholy, mental debility, hysteria, wretchedness, thoughts of self destruction, fear of insanity, hypochondriasis, dyspepsia, general prostration, irritability, nervousness, inability to sleep, diseases incident to females, decay of the propagating functions, hysteria, monomania, vague terrors, palpitation of the heart, impotency, constipation, etc., etc., from whatever cause arising, it is, if there is any reliance to be placed on human testimony, absolutely infallible.

A GREAT MEDICINE FOR FEMALES.

The unparalleled effects of this great restorative in all complaints incident to females, mark a new era in the annals of medicine. Thousands of stimulants have been invented—thousands of invigorants, concocted—all purporting to be specifics for the various diseases and derangements to which the delicate formation of woman renders her liable. The result has heretofore been uniform. These nostrums have indeed imparted a momentary vivacity to the nervous system, a transient and delusive vigor to the muscles, but this flash of relief has been succeeded by a depression and prostration greater than before, and the end has too often been utterly to paralyze the recuperative power of the nerves and the vital organization, and finally to destroy the unhappy patient.

EVERY WOMAN OF SENSE

who suffers from weakness, derangement, nervousness, tremors, pains in the back, or any other disorder, whether peculiar to her sex or common to both sexes—to give the Invigorating Cordial a trial.

MARRIED PERSONS,

or others, will find this Cordial, after they have used a bottle or two, a thorough regenerator of the system. In all directions are to be found the happy parents of healthy offspring, who would not have been so but for this extraordinary preparation. And it is equally potent for the many diseases for which it is recommended. Thousands of young men have been restored by using it, and not in a single instance has it failed to benefit them.

PERSONS OF PALE COMPLEXION,

or consumptive habits, are restored by the use of a bottle or two to bloom and vigor, changing the skin from a pale, yellow, sickly color, to a beautiful florid complexion.

TO THE MISGUIDED.

These are some of the sad and melancholy effects of the early habits of youth, viz., weakness of the back and limbs, pains in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability, derangement of the digestive functions, general debility, symptoms of consumption, &c.

Mentally, the fearful effects on the mind are much to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self distrust, love of solitude, timidity, &c., are some of the evils produced. All thus afflicted

BEFORE CONTEMPLATING MARRIAGE,

should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens the view, the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with your own.

PARENTS AND GUARDIANS

are often misled with respect to the causes and sources of diseases in their sons and wards. How often do they ascribe to other causes of wasting of the frame, idiocy, madness, palpitation of the heart, indigestion, derangement of the nervous system, cough and symptoms indicating consumption, when the truth is, that they have been indulging in a pernicious, though alluring practice, destructive both to mind and body.

CAUTION.

Dr. Morse's Invigorating Cordial has been counterfeited by some unprincipled persons.

In future all the genuine Cordial will have the proprietor's fac simile pasted over the cork of each bottle, and the following words blown in the glass:—

"Dr. Morse's Invigorating Cordial. C. H. RING, Proprietor, N. Y."

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins, for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood, in short any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.
